C++ PROGRAM TO SHOW ANIMATED BOUNCING BALL

Program

```
#include<iostream.h>
#include<conio.h>
#include<graphics.h>
#include<dos.h>
void main()
{
     clrscr();
     int gd=0,gm,x=20,flag=0,y=200,uplimit=250;
     initgraph(&gd,&gm,"C:\\Tc\\BGI");
     while(!kbhit())
     {
          setcolor(4);
          line(0,400,679,400);
          if(flag==0)
          {
               y+=2;
               x+=1;
               if(y>=385)
               flag=1;
          }
          if(flag==1)
          {
               y-=2;
               x+=1;
               if(y<=uplimit)
               {
                    flag=0;
                    uplimit+=20;

               }
          }

          setcolor(15);
          fillellipse(x,y,15,15);
          delay(15);
          setcolor(0);
          setfillstyle(1,10);
          fillellipse(x,y,15,15);
          cleardevice();
     }

     getch();
```

```
}
```
